*The manual contains instructions and visual references to help you in customizing SocialMobi Hotsites.*

## INTRODUCTION

---

Thank you for your continued support. We really appreciate you investing both your time and money by purchasing our products.

SocialMobi Hotsites is a Wordpress theme that allows you to have a mobile “listing” website in any niche of your choice.

This user manual contains instructions and visual references to help you in customizing your SocialMobi Hotsites. We highly recommend reading this manual thoroughly before starting on customizing your SMH.

A restaurant listing might be used as an example in some sections to demonstrate some tasks.

If you encounter issues or have any questions, you can contact our support desk at <https://squeezemobi.zendesk.com> and we will get back to you as soon as we can.

# 1 The Basics

Basically, SocialMobi Hotsite is already loaded with the theme and plugin once you access it. The theme is activated depending on your purchase. The main offer has only one theme color while the upgrade has 12 theme colors to choose from.

They are not actually just plain colors but the header of each theme color has a background image related to different niches like Lawyers, Dentists, Real Estate, Fashion, Night Club, Fitness Club, Cars etc.

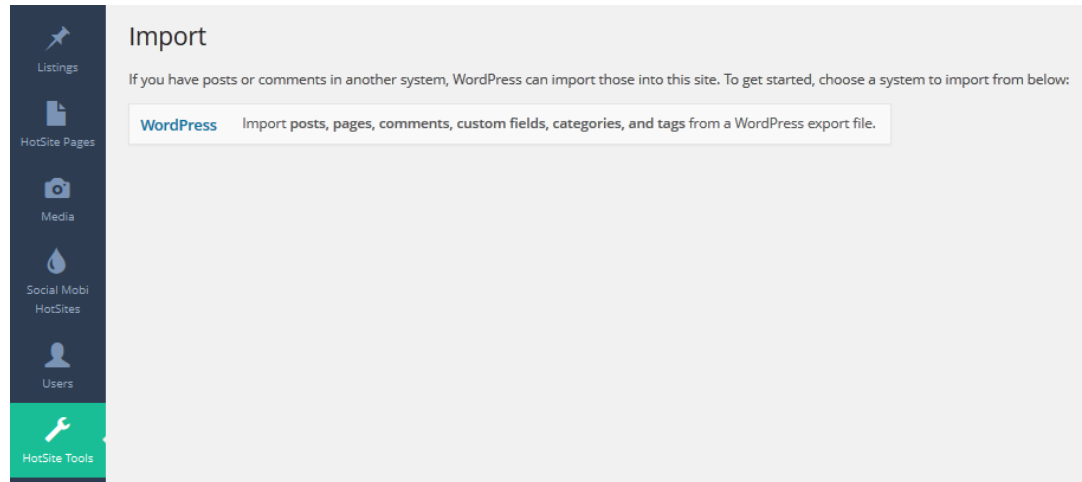

## 1.1 Importing Sample Data (optional)

You can import data to your directory using the Hotsite Tools. Please note that the file has to be an Extensible Markup Language (**XML**) file.

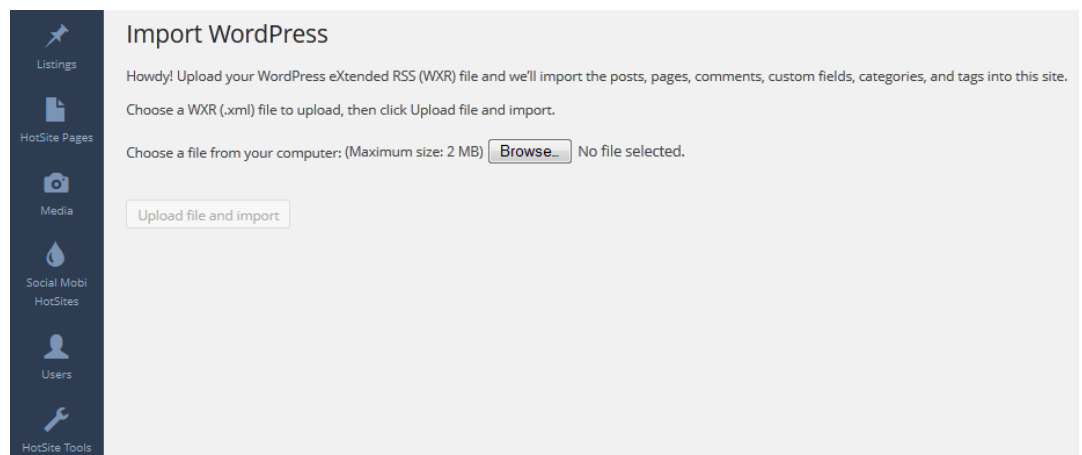

Click Hotsite Tools>Import

From the new screen displayed, click **Wordpress**.

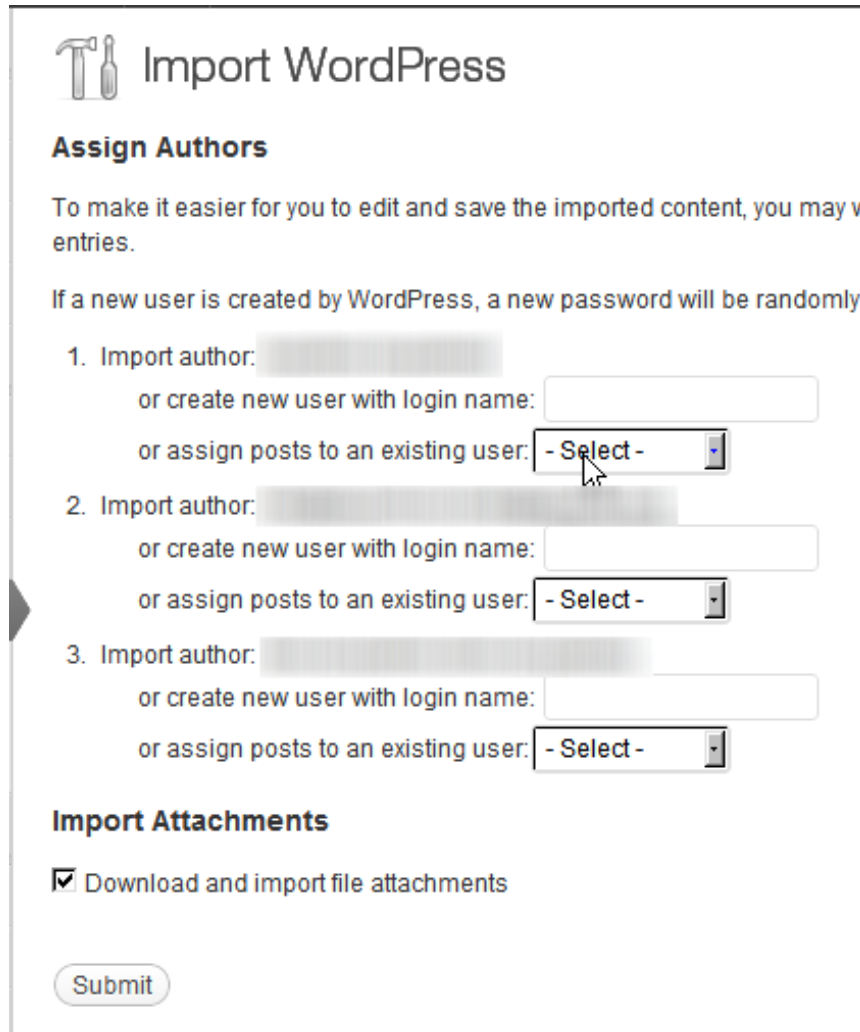

Click the **Choose File** button and select the **XML** file from your computer then click **Upload File and Import**.

In the next screen you will be prompted to assign posts to an existing user. Select the user from the drop down to assign each author to the user account that you are logged into your wordpress install with. Click each **dropdown menu** and select your username.

Click the box next to **Download and Import File attachments**. Finally, hit the **submit** button!

### Import WordPress

#### Assign Authors

To make it easier for you to edit and save the imported content, you may want to assign authors to the imported posts.

If a new user is created by WordPress, a new password will be randomly generated for you.

1. Import author:   
or create new user with login name:   
or assign posts to an existing user:
2. Import author:   
or create new user with login name:   
or assign posts to an existing user:
3. Import author:   
or create new user with login name:   
or assign posts to an existing user:

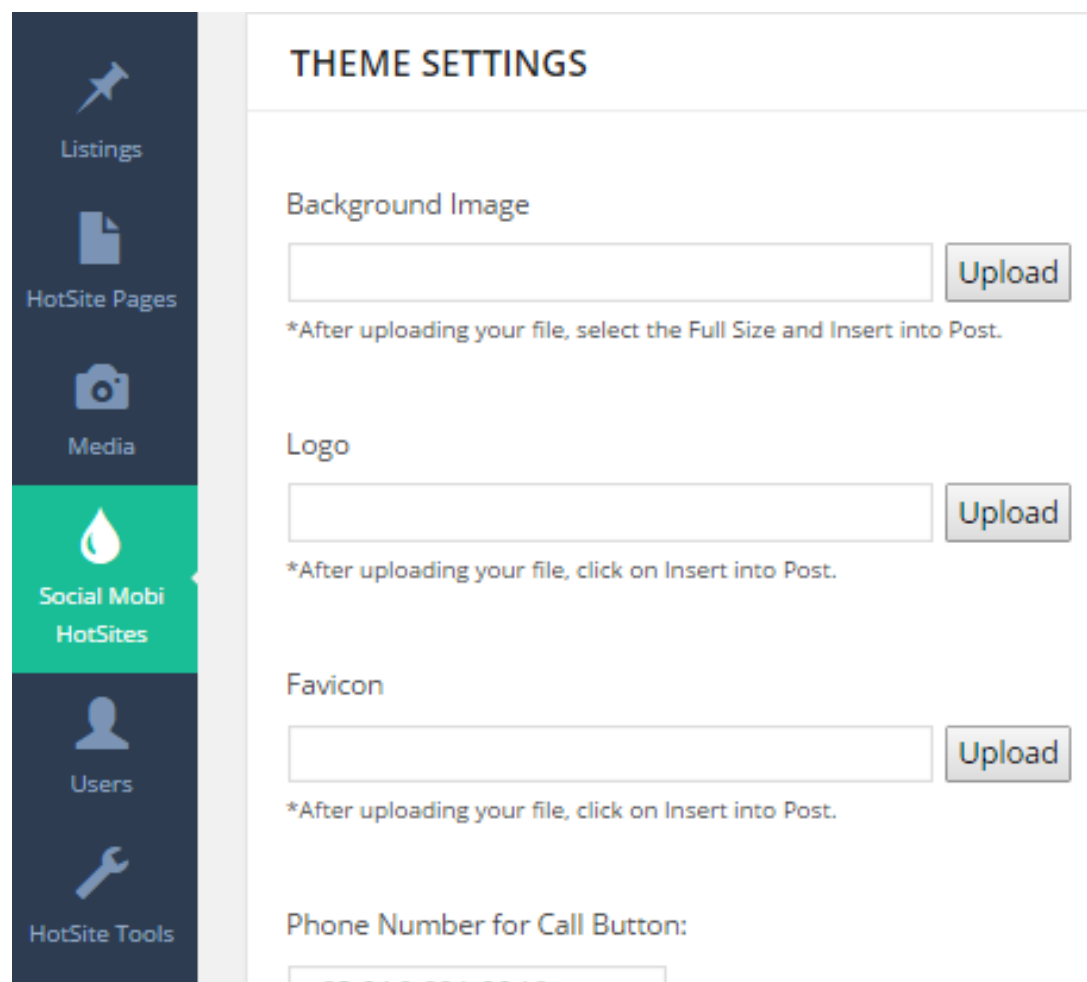

#### Import Attachments

☒ Download and import file attachments

Once the xml file is successfully uploaded click **Activate**. You are now ready to customize your SocialMobi Hotsites into a listing website that will bring you lots of money!

## 2 Appearance > Settings

Customizing your SocialMobi Hotsites is easily done by accessing the SocialMobi Hotsites settings from your Wordpress Dashboard. Let us take an overview of each section in the settings menu.

## 2.1 Theme Settings

The theme settings have the general options for making SocialMobi Hotsites your very own by allowing you to change the logo, favicon, phone number that gets dialed when the phone icon in your site is clicked on, email address where you receive the information of the business who sends it thru the form, add an embed video for your homepage and many more.

Image below is the Theme settings section that you will customize with your logo, video and messages. After doing all the changes in this section you will have to click on the **Save Settings** just below the section.

`<p>© 2014 | All Rights Reserved</p>`

Please enter an email address where you are receiving the subscribers information:

Contact Us - Thank you message:  
`<h2>Thank you very much for your message.</h2><h3>We will contact you back as soon as possible.</h3>`

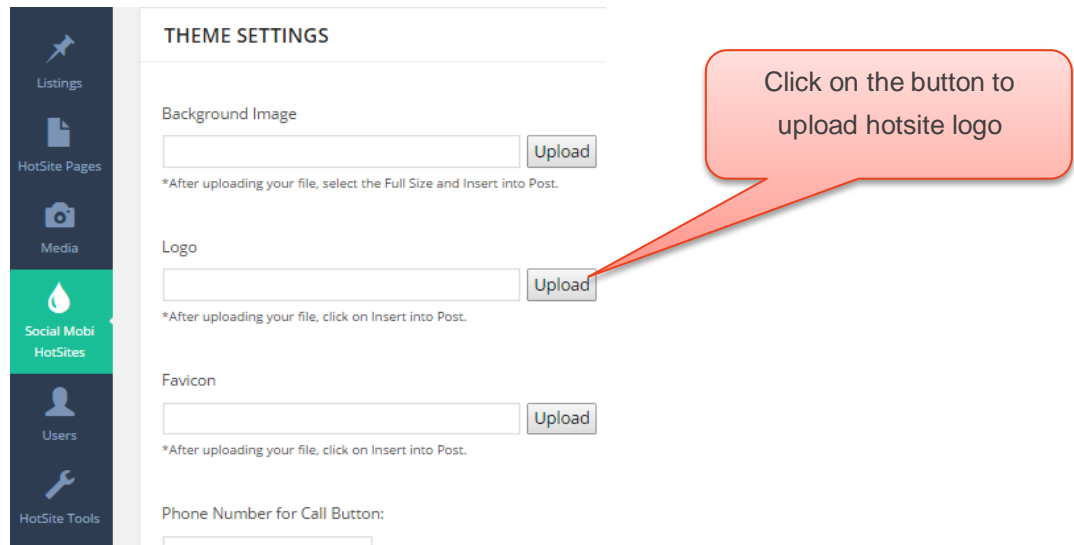

Free - Thank you message:  
`<h2>Thank you very much for listing your Business!</h2><h3>We will include your business on this mobile guide over the next 48 hs.</h3>`

Premium - Thank you message:  
`<h2>Thank you for Subscribing to Business Directory!</h2><h3>We will include your business on this mobile guide over the next 48 hs.</h3>`

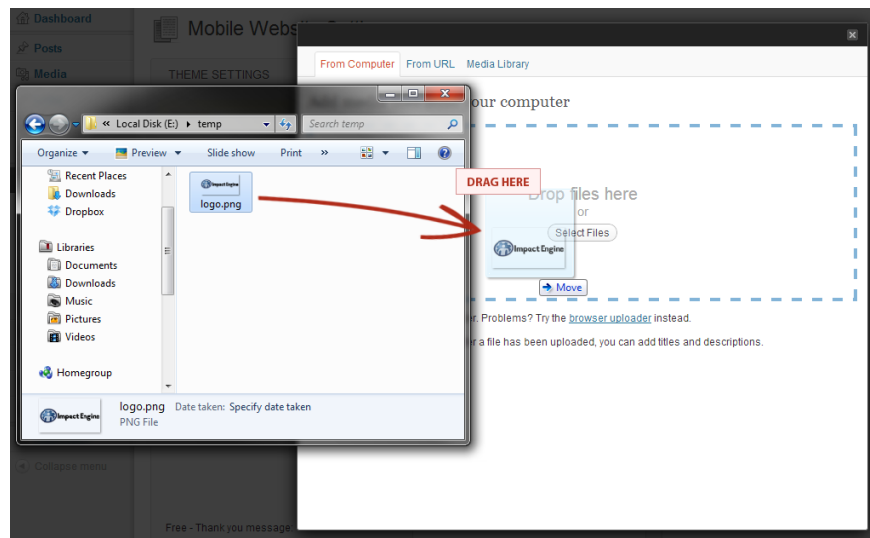

## A. Uploading Hotsite logo.

The following images show how to change/upload your own custom logo and favicon.

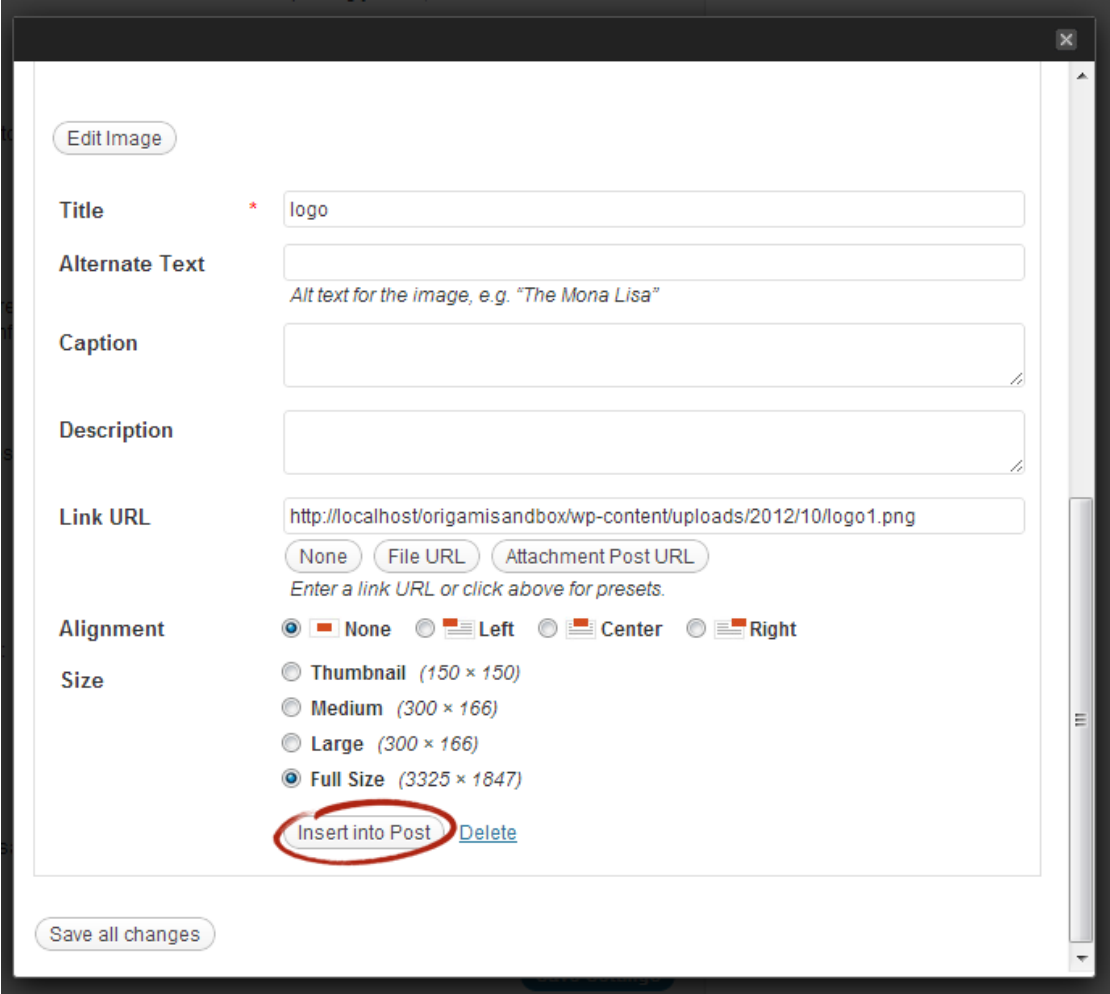

Click on the **Upload** button. This will open up a prompt/lightbox.

You can either drag your logo/favicon file into the space provided or click the **'Select Files'** button to manually locate your logo file and upload. We recommend using a 16x16 image for your favicon.

The prompt area will show your upload progress. After completing the upload, scroll down and press the **'Insert into Post'** button.

The screenshot shows a 'Theme Settings' dialog box with a close button (X) in the top right corner. Inside the dialog, there is an 'Edit Image' button at the top left. The main section contains several fields and options for configuring the logo/favicon:

- Title**: A text field containing 'logo'.
- Alternate Text**: A text field with placeholder text: 'Alt text for the image, e.g. "The Mona Lisa"'.
- Caption**: A text field.
- Description**: A text field.
- Link URL**: A text field containing 'http://localhost/origamisandbox/wp-content/uploads/2012/10/logo1.png'. Below it are three buttons: 'None', 'File URL', and 'Attachment Post URL'. A note below these buttons says: 'Enter a link URL or click above for presets.'
- Alignment**: Four radio button options: 'None' (selected), 'Left', 'Center', and 'Right'.
- Size**: Four radio button options: 'Thumbnail (150 x 150)', 'Medium (300 x 166)', 'Large (300 x 166)', and 'Full Size (3325 x 1847)' (selected).
- At the bottom of the configuration section are two buttons: 'Insert into Post' (circled in red) and 'Delete'.
- At the very bottom of the dialog is a 'Save all changes' button.

The logo/favicon field should now be updated. Hit **'Save Settings'** at the bottom of the Theme Settings section to enable your logo/favicon in your whole site and not at the Save Settings at the bottom of the page.

## B. Uploading Header Background Image (Developer's License)

If you don't like to use the niche background images, you can replace them with your own image. The size of the image has to be 1900 x 1200px. Please note that this is only for the header background image and not for the page background.

**THEME SETTINGS**

**Background Image**

**Upload**

\*After uploading your file, select the Full Size and Insert into Post.

**Logo**

**Upload**

\*After uploading your file, click on Insert into Post.

**Favicon**

**Upload**

\*After uploading your file, click on Insert into Post.

**Phone Number for Call Button:**

Select the image you wanted to upload. Once it's completely uploaded the rest of the information will open. Make sure the box for 1900 x 1200 is marked, then click the "Insert to Post" button.

**Edit Image**

**Title** \*

**Alternative Text**

Alt text for the image, e.g. "The Mona Lisa"

**Caption**

**Description**

**Link URL**

Enter a link URL or click above for presets.

**Alignment** ☒ None ☐ Left ☐ Center ☐ Right

**Size** ☐ Thumbnail (150 x 150) ☐ Medium (300 x 189) ☐ Large (1200 x 180) ☒ Full Size (1900 x 1200)

**Insert into Post** [Delete](#)

Last step would be to click the “**Save Settings**” button at the bottom of Theme Settings section and not the save settings button at the very bottom.

### C. Adding a video on your homepage (optional)

If you would like to add a video in the homepage of your directory, you can do that by pasting the embed code of your YouTube video to the space provided for.

Open the video from youtube then copy the embed code.

Share **Embed** Email

---

```
<iframe width="560" height="315" src="//www.youtube.com/embed/lq2Qtz9EZxw" frameborder="0" allowfullscreen></iframe>
```

---

Then go to settings and paste the embed code on the space provided for.

## 2.2 Color Themes

You can also choose different color schemes for your SocialMobi Hotsites (if you purchased the OTO – Developer's license + 12 color choices) so you can always keep it fresh-looking or just change it to a color scheme that you like best.

- *OTO1 includes a developer's license and 12 theme color schemes to choose from so go and get it fast!*

Theme colors available depends on your purchase. Main offer comes with only one (1) theme color while the upgrade has 12 color theme choices

## 2.3 Edit Social Network Links

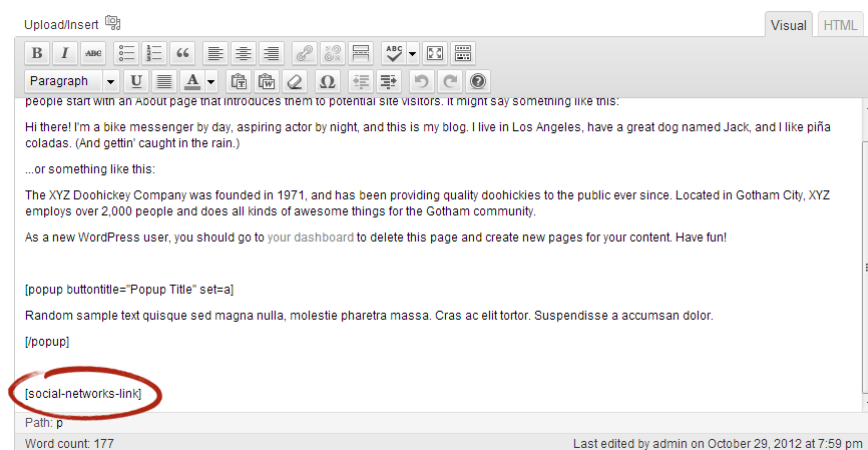

Put the links to your social networking pages here to update the links for the whole site. Social media helps a lot in driving traffic so be sure to update these!

SOCIAL NETWORK	URL	ANCHOR TEXT
Facebook:	<input type="text" value="https://www.facebook.co"/>	<input type="text" value="Facebook Us"/>
Twitter:	<input type="text" value="http://www.facebook.co"/>	<input type="text" value="TW"/>
YouTube:	<input type="text" value="http://www.youtube.com"/>	<input type="text" value="YT"/>
LinkedIn:	<input type="text" value="http://www.linkedin.com"/>	<input type="text" value="LinkedIn"/>
Yelp:	<input type="text" value="http://www.yelp.com/biz"/>	<input type="text" value="Yelp"/>

[Save Settings](#)

After filling up the fields, you can show your social network links on a page by pasting the shortcode **[social-networks-link]** into the body of your page. The ANCHOR TEXT is the text displayed beside the icon, as shown in the image below.

**Save/Update/Publish** your page and your social network links will display in the page. If you prefer to show only a few links like Facebook and Twitter, or if you do not have accounts in the other sites, simply leave the URL fields empty and the code will not display the links for those sites.

Find us on social networking sites and connect with us! Get this awesome WordPress theme right now and start your own raiding campaign for riches!

## 2.4 Social Feed Settings

You can display your tweets, posts and other stuff in your Hotsites by using the social feed settings. Simply put the URL (for Facebook and RSS) or your username (for Twitter, Flickr, and Youtube) and add a page using each of these templates. You can also choose to only have a Facebook and Twitter page – what pages to add is totally up to you.

**SOCIAL FEED SETTINGS**

To activate these social feeds, add a New Page, and select either Facebook, Twitter, Flickr, YouTube or RSS as the page template.

Facebook profile URL:	<input type="text" value="https://www.facebook.c"/>
Twitter username:	<input type="text" value="SqueezeMobi"/>
RSS URL:	<input type="text" value="http://sylvesterstallone.c"/>
Flickr username:	<input type="text" value="Philipp Klinger Photogr"/>
YouTube username:	<input type="text" value="SqueezeMobi"/>

Save Settings

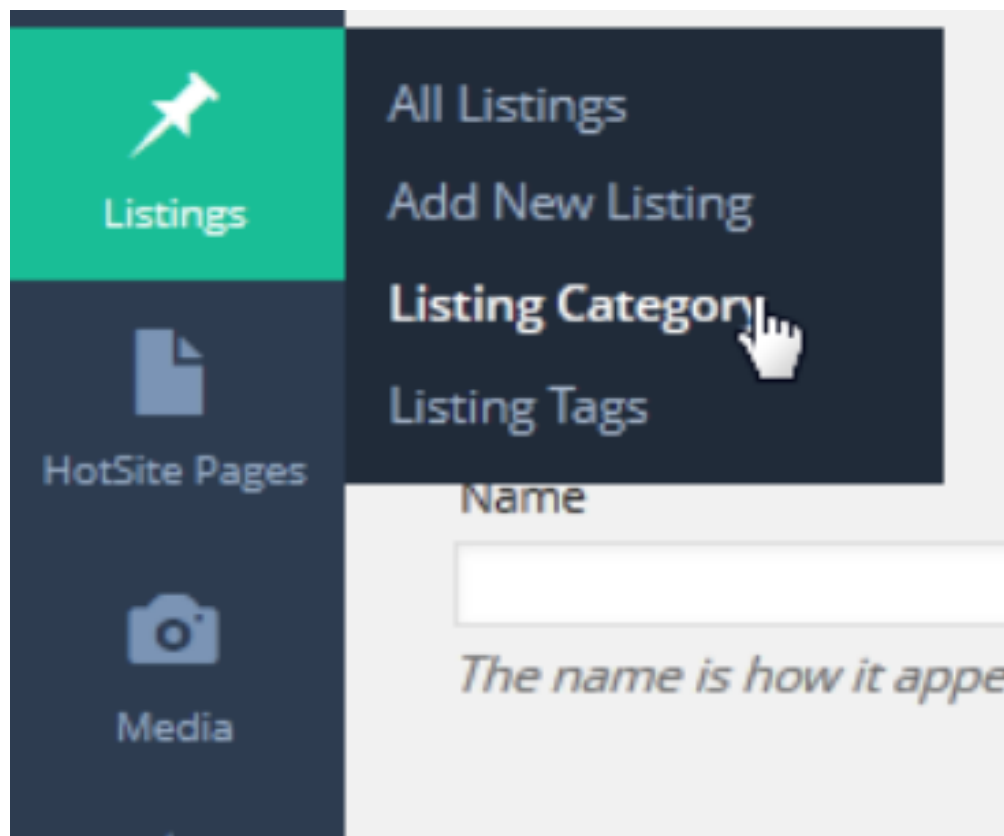

### 3 Adding Post Categories

Categories help viewers display a more refined list of the business they are looking for.

Follow the instructions below to add different categories to your SocialMobi Hotsites.

Don't get confused here, a Post Category stands for a listing category. Since Wordpress is the platform for SocialMobi Hotsites, it sees the listings as 'posts' and categories as 'post categories'.

The following images show how to add a new category.

### Add New Category

Name

*The name is how it appears on your site.*

Slug

*The "slug" is the URL-friendly version of the name. It is usually all lowercase and contains only letters, numbers, and hyphens.*

Parent

*Categories, unlike tags, can have a hierarchy. You might have a Jazz category, and under that have children categories for Bebop and Big Band. Totally optional.*

Description

*The description is not prominent by default; however, some themes may show it.*

Add New Category

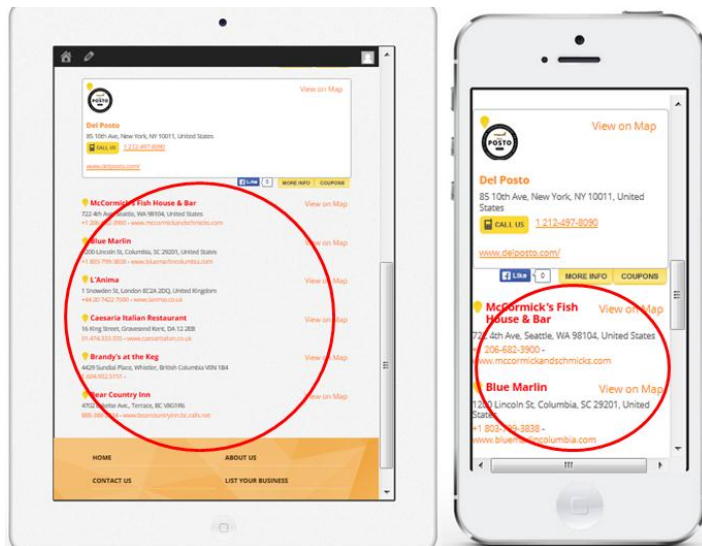

Put your category name in the 'Name' field and leave the 'Slug' field empty; Wordpress automatically writes the appropriate slug name for your category.

Choose a parent category if you are adding a subcategory. Subcategories are also shown in the home page along with their parent category.

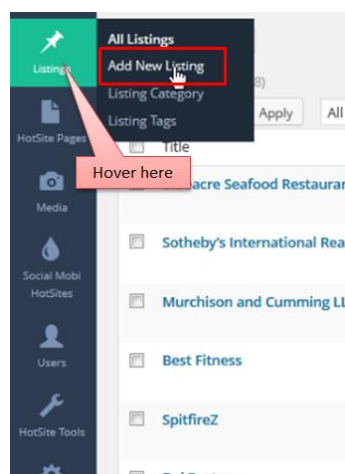

Add a short description on the category to help differentiate it from the other categories.

## 4 Adding Free Listing

Free listings are the most basic ones in the directory. Only minimal information about the business is shown.

To add a free listing, go to **'Add New Listing'** under **'Listings'**.

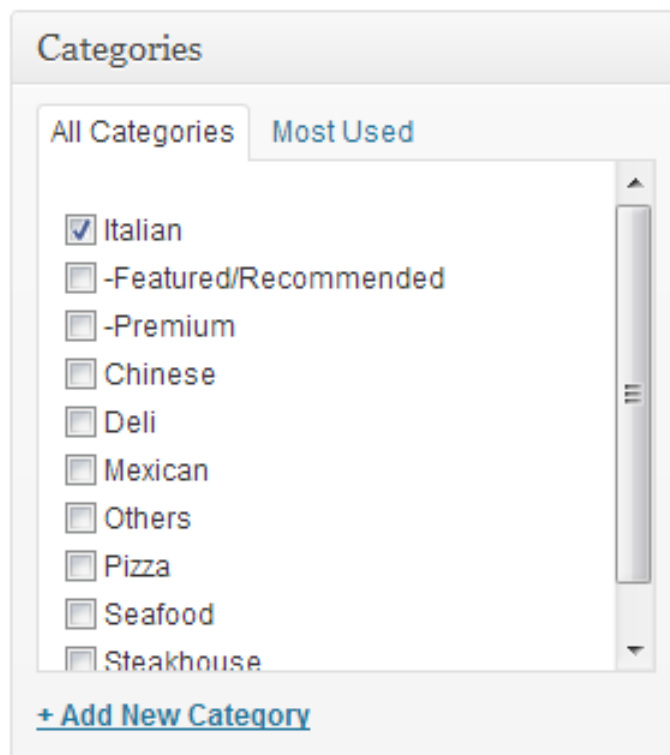

Depending on your screen size and layout options, you will find a section labeled '*Categories*' either below the post body text area or to the right of it. Check the category where the business falls into.

Please note, the '*Featured/Recommended*' and '*Premium*' categories are only for paid business listings.

You can also use the **+Add New Category** link in the box to add a new category in which your current listing belongs to.

**Categories**

All Categories Most Used

- ☒ Italian
- ☐ -Featured/Recommended
- ☐ -Premium
- ☐ Chinese
- ☐ Deli
- ☐ Mexican
- ☐ Others
- ☐ Pizza
- ☐ Seafood
- ☐ Steakhouse

[+ Add New Category](#)

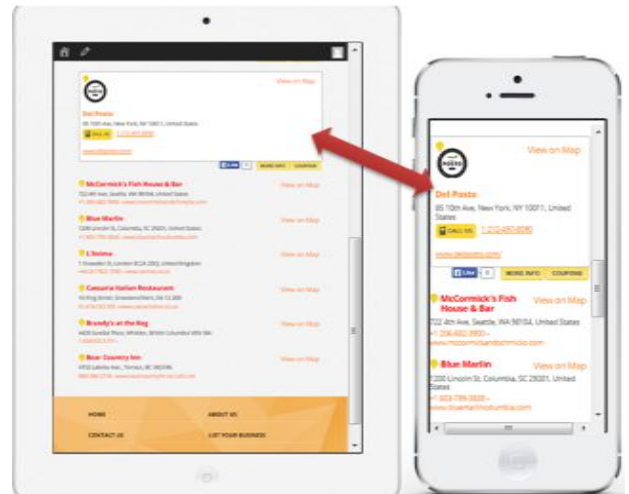

Press the **Update** or **Publish** button to complete the process.

## 5 Adding a Premium Listing

Premium listings are listings that show more information and images of a business. We recommend you charge for these businesses under Premium listings. Additionally these allow browsers to click through to see a dedicated page for that listing.

To add a premium listing, follow the same steps in **Section 4** and perform the tasks shown below. The following steps are also the same steps you need to do to convert a free listing into a premium listing.

First, check 'Premium' category.

### Categories

All CategoriesMost Used

☒ Italian

☐ -Featured/Recommended

☒ -Premium

☐ Chinese

☐ Deli

☐ Mexican

☐ Others

☐ Pizza

☐ Seafood

☐ Steakhouse

+ Add New Category

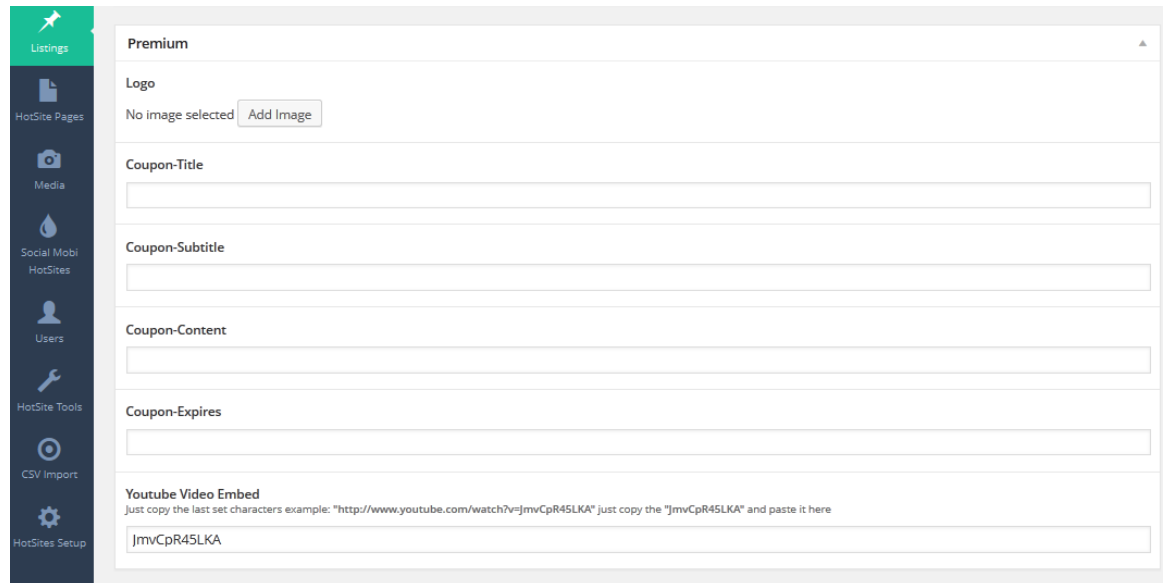

Next, fill up the section labeled 'Premium' just below the 'Free'. Sample data on a coupon can be found below.

Coupon Title: **Happy Hour Freebies**

Coupon Subtitle: **Get free hours d'oeuvre with every drink that you order!**

Coupon Content: **7GH346DDZ**

Coupon Expired: **Dec 25, 2013**

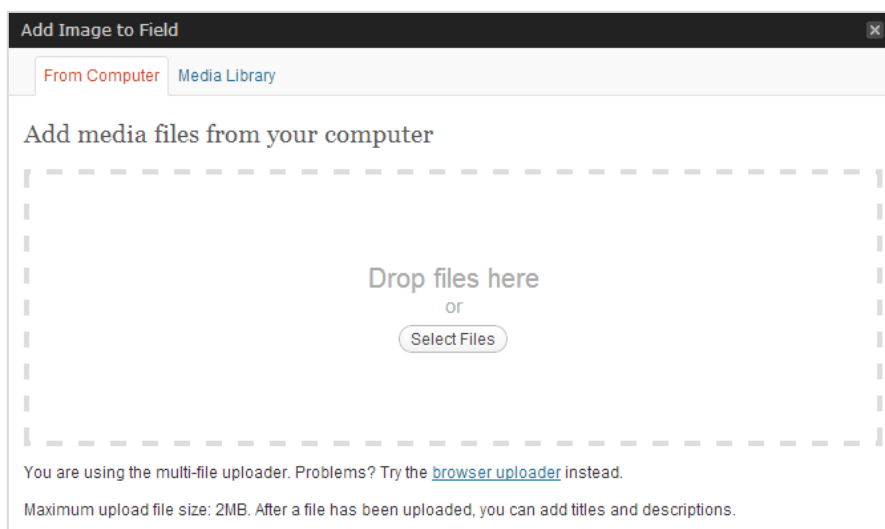

The screenshot shows the 'Premium' section of a coupon form in the SocialMobi Hotsite interface. The left sidebar contains navigation links: Listings, HotSite Pages, Media, Social Mobi HotSites, Users, HotSite Tools, CSV Import, and HotSites Setup. The main form area has the following fields:

- Premium** (Section Header)
- Logo**: No image selected. Add Image
- Coupon-Title**: Text input field
- Coupon-Subtitle**: Text input field
- Coupon-Content**: Text input field
- Coupon-Expires**: Text input field
- Youtube Video Embed**: Text input field with instructions: "Just copy the last set characters example: 'http://www.youtube.com/watch?v=jmvCpR45LKA' just copy the 'jmvCpR45LKA' and paste it here". The field contains the text 'jmvCpR45LKA'.

## 5.1 Adding a logo for the premium/featured listing

To add a logo, click the **Add Image** button. A pop-up will open and click **Select Files**. Locate the logo image stored in your computer and double-click the file or press **Open**.

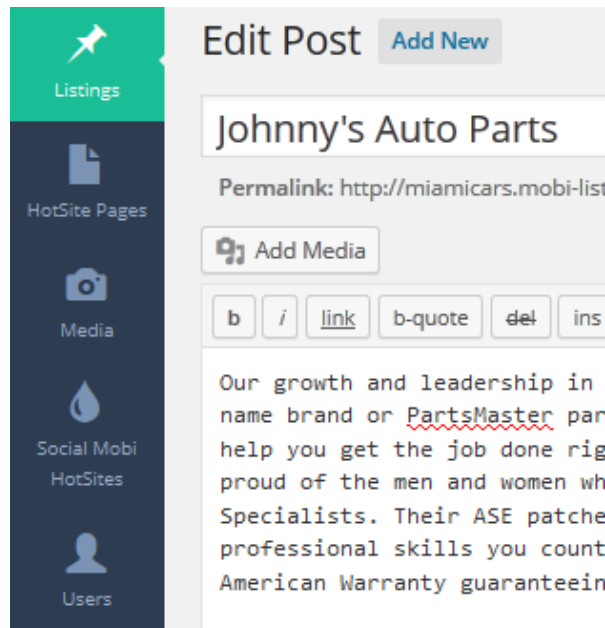

Once the upload has been completed, click the **Select Image** button on the right.

You have now successfully added a logo. The last thing you need to do is add a featured image for the listing.

## 5.2 Adding a featured image

To add a featured image to the listing, click on the **Add Media** button found just above the post body text area.

Follow the same steps in uploading a logo image. After the upload is complete, choose “upload to the post” from the drawdown menu, from the right click on Set Featured Image to show the “Set featured Image” button to the right then click it.

An image will now appear in the 'Featured Image' section on the right corner of the page. Press the **Update** or **Publish** button to complete the process.

Featured Image

[Remove featured image](#)

## 5.3 Adding a video for a premium/featured listing

Adding a video to a premium business listing you will only need to put the Youtube video ID and not the whole embed code or URL of the video.

Please note that only videos uploaded in YouTube are supported by SocialMobi Hotsite's theme.

Open the youtube video and copy the ID. The ID is the code you see after "watch?="

Paste it in the space provided at the bottom of the premium section.

### Youtube Video Embed

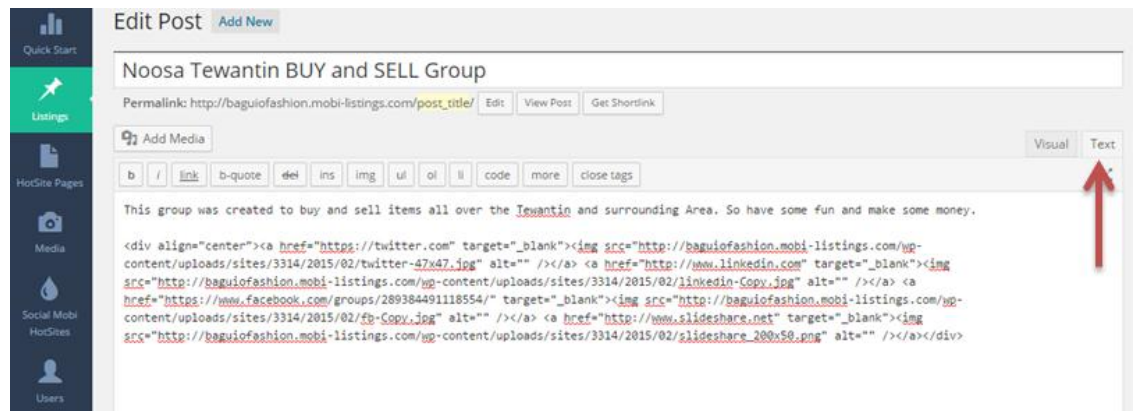

Just copy the last set characters example: "http://www.youtube.com/watch?v=jmvCpR45LKA" just copy the "jmvCpR45LKA" and paste it here

A red arrow points from the bottom right towards the empty text input field, indicating where to paste the video ID.

## 5.4 Adding social icons to a premium/featured listings page

Before adding social icons of a premium listing to its page, upload the social icon images to your media library. Go to Media > Add New. Make sure the icons have the same size so it will look good when added in a page.

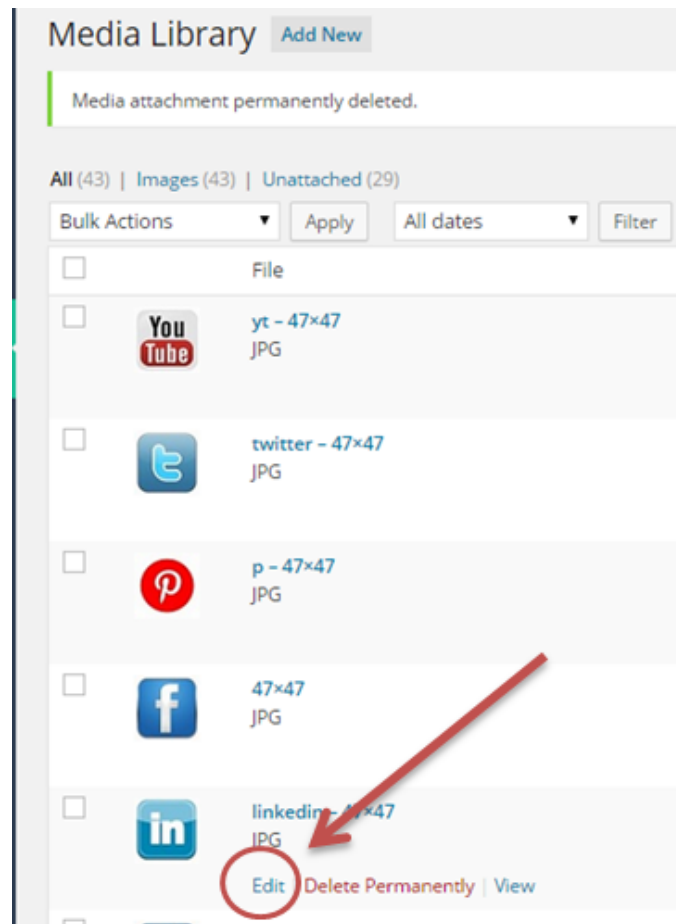

Go *Listings* > *All Listings* then click edit of a premium/featured listing. On the Edit Post page click the "Text" from the top right of the editor.

Below the business information paste these codes. Put the social media URLs of the business and the icon URL.

```
<div align="center"><a href="TWITTER URL" target="_blank"></a> <a href="LINKEDIN PAGE URL" target="_blank"></a> <a href="FACEBOOK URL" target="_blank"></a> <a href=" YOUTUBE CHANNEL URL" target="_blank"></a> <a href="PINTEREST URL" target="_blank"></a></div>
```

To copy the social icon url, go to Media > Library. Point your cursor to the icon you are going to use then click the Edit button below it.

Once you are in the Edit Media page copy the File URL from the right.

Paste your icon URL to the code where it says "ICON URL". Once you are done click the publish button. After it's successfully saved you will now see the social icons for the listings.

This is how it looks now in the business listing page when opened. So when a customer clicks on the icons in a listing's page, they will be directed to the social media page of the business.

## Buy and Sell

[◀ BACK](#)

### Noosa Tewantin BUY and SELL Group

This group was created to buy and sell items all over the Tewantin and surrounding Area. So have some fun and make some money.

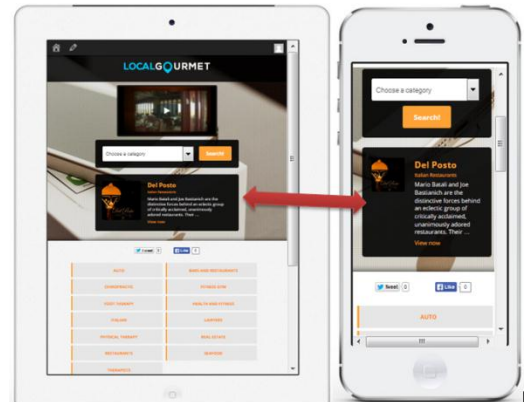

## 6 Adding a Featured Listing

At any given moment there should only be 1 featured listing. Be careful not to accidentally assign more than 1 listing to the “Featured/Recommended” category. Doing so will cause unexpected results and is unsupported.

Follow the procedures in **Section 5 & 6** (depending on which type of listing the establishment wants) before converting it to a featured listing.

Follow the step below to convert any listing to a featured listing.

Simply check the box labeled as ‘*Featured/Recommended*’ under the ‘Categories’ section.

Categories

All Categories Most Used

- ☒ Italian
- ☒ -Featured/Recommended
- ☒ -Premium
- ☐ Chinese
- ☐ Deli
- ☐ Mexican
- ☐ Others
- ☐ Pizza
- ☐ Seafood
- ☐ Steakhouse

[+ Add New Category](#)

Press the **Update** or **Publish** button to complete the process.

## 7 Navigation Information

### Navigation:

In order to change the navigation please go to “*SocialMobi Hotsites > Menus*” *then* create the navigation where it says “Navigation”. Add the elements that you want to show in the navigation and save the navigation you have created. Lastly select it as “Primary Navigation” by checking the box beside Primary Navigation at the bottom of the page.

The screenshot shows the 'Menus' management interface in SocialMobi Hotsites. On the left is a sidebar with navigation options: Listings, HotSite Pages, Media, Social Mobi HotSites (highlighted), Users, HotSite Tools, CSV Import, and HotSites Setup. The main content area is titled 'Pages' and contains a 'Most Recent' list with items: Home, List Your Business, Contact Us, and About Us. Below this list are 'Links' and 'Categories' sections. To the right, the 'Menu Name' is set to 'Navigation'. The 'Menu Structure' section shows a list of items to be dragged into the menu: Home, List Your Business, Contact Us, and About Us, each with a 'Page' dropdown. The 'Menu Settings' section includes 'Auto add pages' (unchecked) and 'Theme locations' (checked for 'Primary Navigation'). At the bottom, there are 'Delete Menu' and 'Save Menu' buttons.

If you want to change the navigation button color you have to add “set-a”, “set-b” or “set-c” under “Title Attribute”

## View all the created pages:

In order to see all of the pages you have, go to *HotSite Pages > All Pages*.

The screenshot displays the 'Pages' management section of the SocialMobi Hotsite interface. On the left is a dark blue sidebar with icons and labels for 'Listings', 'HotSite Pages' (highlighted in green), 'Media', 'Social Mobi HotSites', 'Users', 'HotSite Tools', and 'CSV Import'. The main content area has a light gray background. At the top, it says 'Pages' followed by an 'Add New' button. Below this, there are filters for 'All (4)' and 'Published (4)'. A table of pages follows, with a 'Bulk Actions' dropdown and an 'Apply' button at the top. The table lists five items, each with a checkbox and a title: 'Title', 'About Us', 'Contact Us', 'Home', and 'List Your Business'. At the bottom of the table, there is another 'Bulk Actions' dropdown and an 'Apply' button.

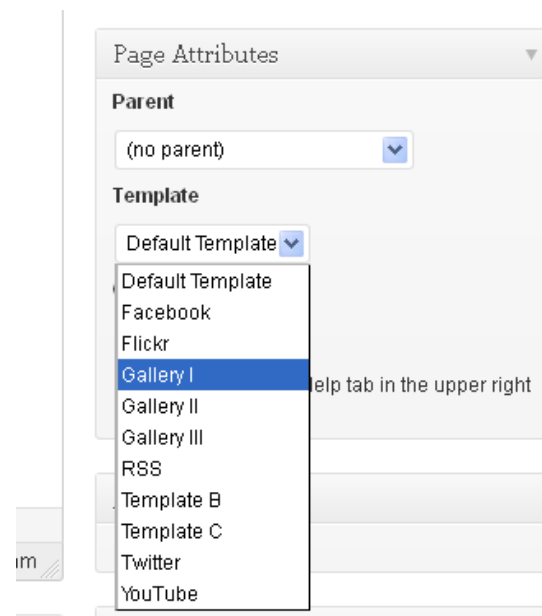

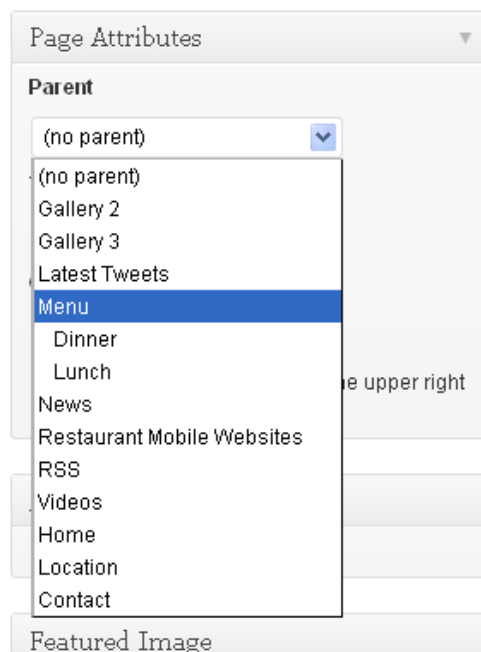

<input type="checkbox"/>	Title
<input type="checkbox"/>	About Us
<input type="checkbox"/>	Contact Us
<input type="checkbox"/>	Home
<input type="checkbox"/>	List Your Business
<input type="checkbox"/>	Title

## Add Page

To add a new page, go to HotSite *Pages* > *Add New Hotsite Page* and you will see the image below.

The screenshot shows the 'Add New Page' interface. On the left is a dark sidebar with navigation icons for Listings, HotSite Pages (highlighted), Media, Social Mobi Hotsites, Users, HotSite Tools, CSV Import, and HotSite Setup. The main area is titled 'Add New Page' and contains a text input field 'Enter title here'. Below this is a rich text editor with a toolbar including 'Add Media', 'Visual' (bold, italic, underline, link, unlink, list, indent, outdent, quote, code), and 'Text' (undo, redo, clear formatting). The editor shows a single paragraph 'p' and a 'Word count: 0' at the bottom. On the right, there are two panels. The 'Publish' panel includes 'Save Draft', 'Preview', 'Status: Draft Edit', 'Visibility: Public Edit', 'Publish immediately Edit', 'Move to Trash', and a 'Publish' button. The 'Page Attributes' panel includes 'Parent' (dropdown set to '(no parent)'), 'Template' (dropdown set to 'Default Template'), and 'Order' (input field set to '0'). A note at the bottom right says 'Need help? Use the Help tab in the upper right of your screen.'

Here you have to add Title, Text, select a parent if needed (this is how subpages works) and select a template if needed. Lastly, press Publish button.

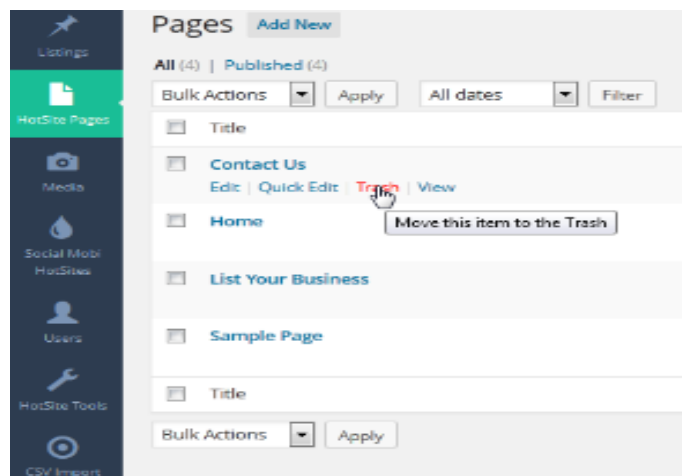

### Parent Template

Choose templates B and C to change the subnavigation color.

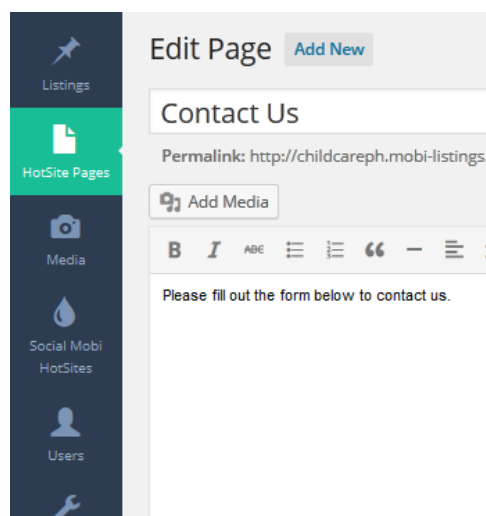

## View, Edit or Delete pages.

In order to see, edit or eliminate a page you have to position the cursor over a page title and select one of the shown options.

You can either move a page to the trash or delete it permanently. Moving it to trash will give you the opportunity to recover it but if you choose to delete it permanently you will have to go to the Trash tab to delete it permanently.

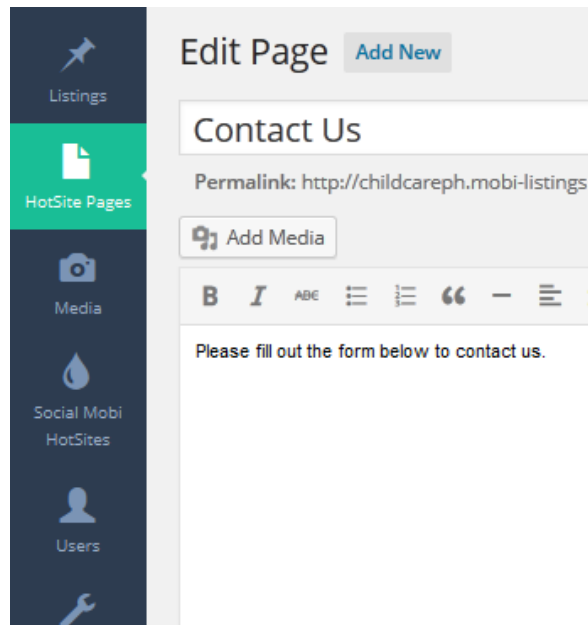

If you select “Edit” The next screen will be shown:

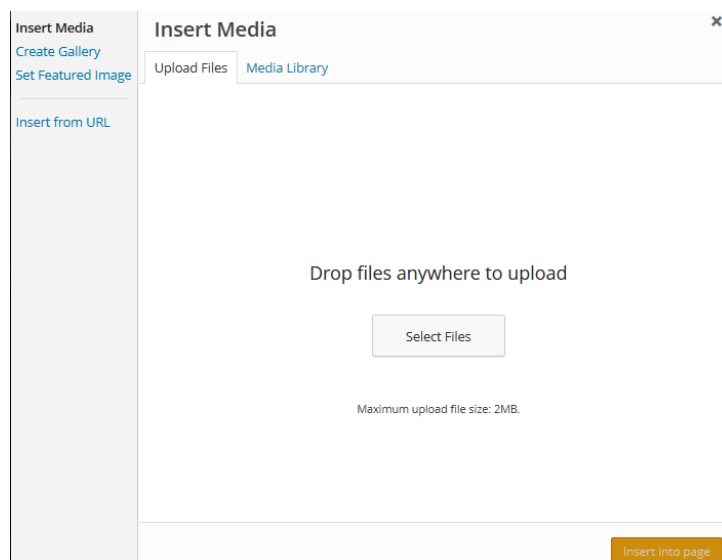

## Add images to a page:

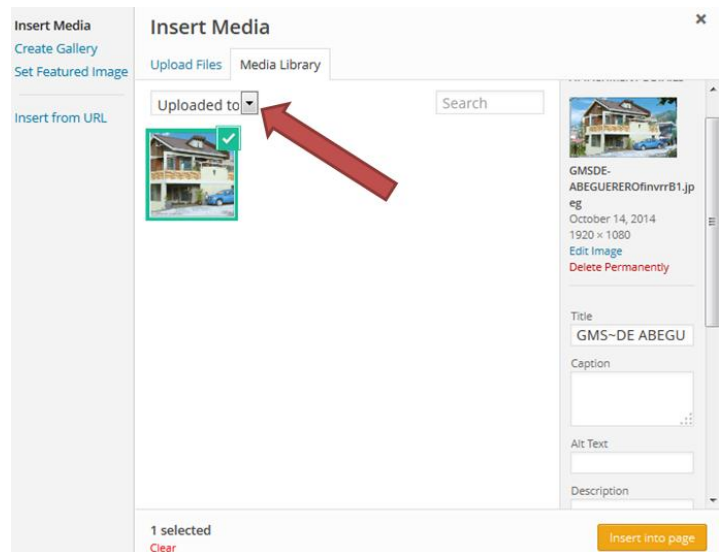

In order to add images to a page, go to click on the “**Add Media**” tab.

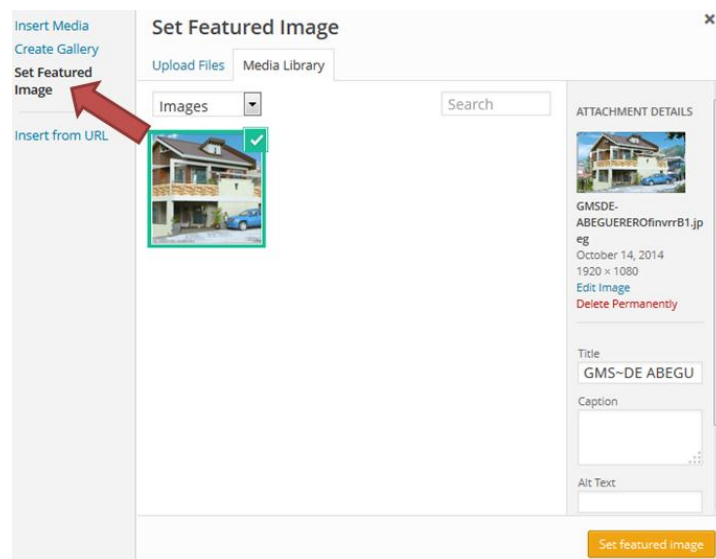

You will see the next screen where you can select the file to upload to the site.

Once the image is uploaded you will see the next screen with the image data that you can edit. To have the image inserted to a specific page you are working on, choose “Insert to Page” from the dropdown then click the “Insert into Page” button at the bottom.

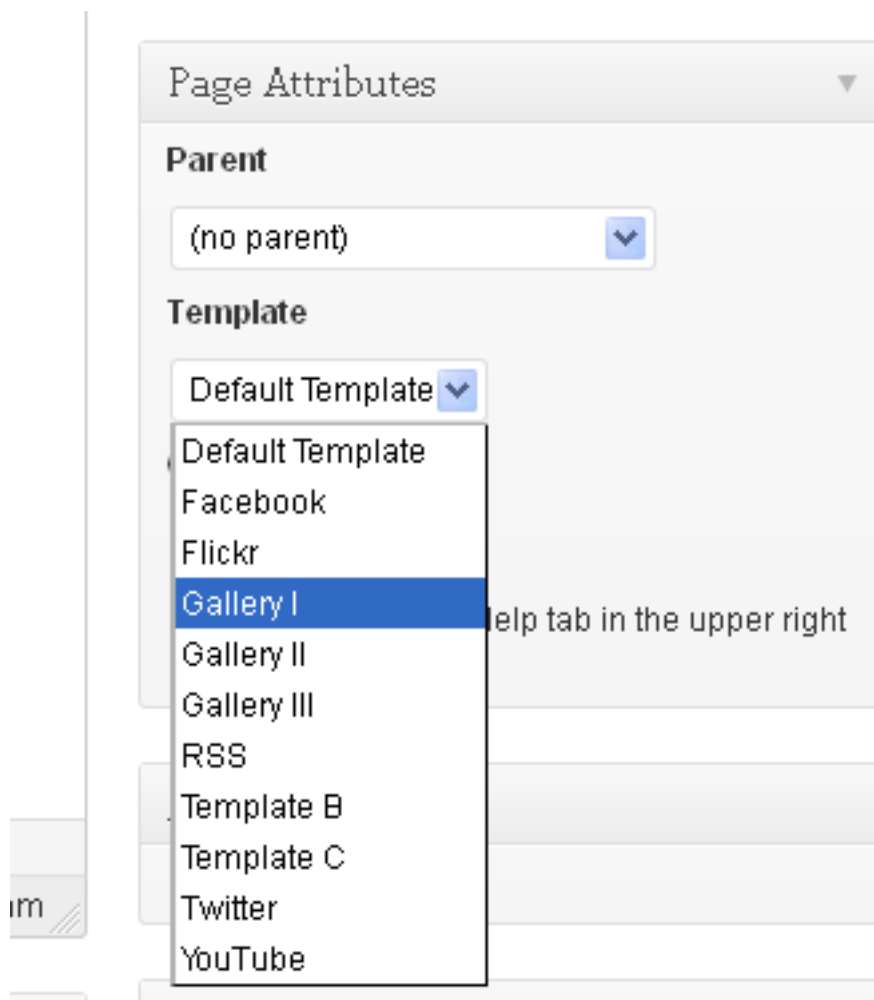

If you want to set an image to represent the page, choose “Upload to Page” from the dropdown and select “Set Featured Image” from the left then click the “Set featured image” button at the bottom.

## Create a gallery page:

In order to turn a page into an image gallery, please upload to the page all the images that you need (no need to insert them into post) and then choose the gallery template that you wish.

## Pop ups

For making a popup you have to insert the next code in the text editor:

```
[popup buttontitle="Popup Title" set=a]
```

Random sample text quisque sed magna nulla, molestie pharetra massa. Cras ac elit tortor. Suspendisse a accumsan dolor.

```
[/popup]
```

*Parameters reference:*

**buttontitle:** the text that is shown in the button

**set:** choose between a, b or c. If you don't use this parameter, the default choice is "set-a" (e.g. `[popup buttontitle="Popup Title"]`).

Lastly, put the pop up content between `[popup buttontitle="Popup Title" set=a]` and `[/popup]` tags.

## Social Settings:

You have to fill in the requested data and then when you create a page choose between the next templates:

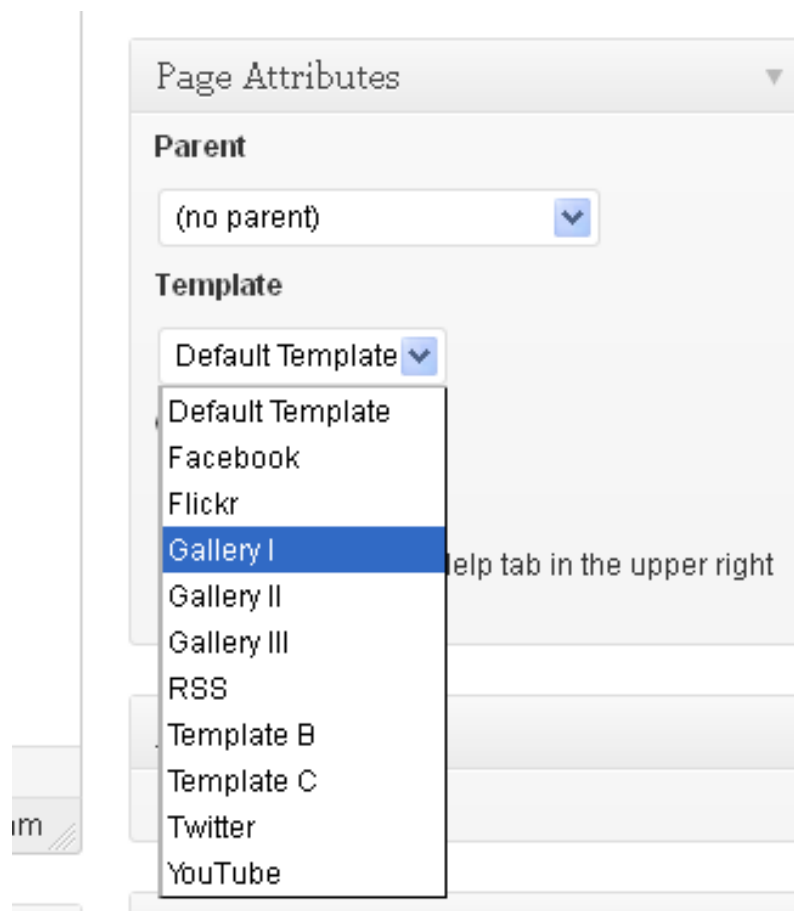

**Facebook:** Shows the Facebook wall in the page in which you selected this template.

**Flickr:** Shows the albums and pictures of the user set on the page in which you selected this template.

**RSS:** Shows the RSS feed of the url set on the page in which you selected this template.

**Twitter:** Shows the latest Tweets of the user set on the page in which you selected this template.

**YouTube:** Shows the YouTube videos in the page in which you selected this template.

*You can also do this by inserting the next codes in the page text editor:*

**Facebook:**

[facebook-like-box] ( the default data is set on the Website Mobile Settings).

[facebook-like-box url="http://www.facebook.com/page"]

**Twitter:**

[latest-tweets] (the default data is set on the Website Mobile Settings)

[latest-tweets username="username"]

**RSS:**

[rss] (the default data is set on the Website Mobile Settings)

[rss url="http://www.example.com/feed"]

**Flickr:**

[flickr] (the default data is set on the Website Mobile Settings)

[flickr username="username"]

**YouTube:**

[youtube] (the default data is set on the Website Mobile Settings)

[youtube username="username"]

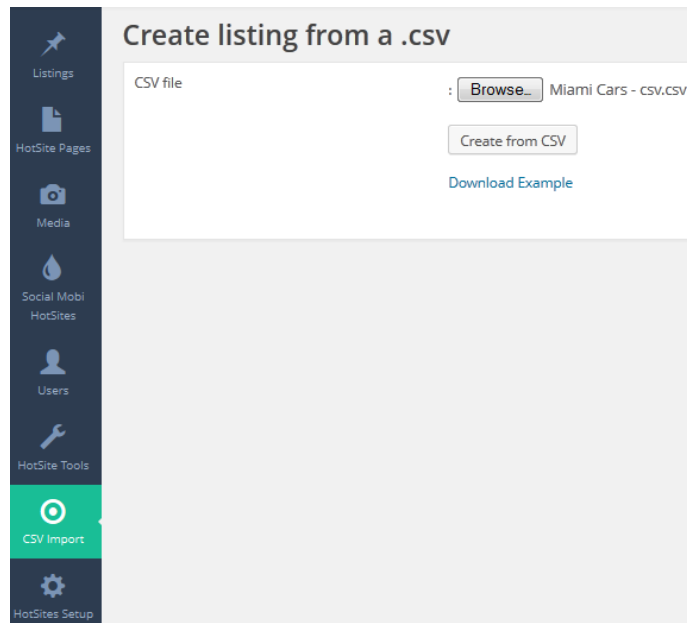

*Using CSV import is the easiest way to populate a hotsite with listings.*

*CSV template can be downloaded from the members area.*

## C8 CSV Functionality

We have integrated CSV upload functionality. With this functionality you will be able to easily set listings up faster and have more time visiting and pitching local businesses and therefore have more recurring income.

Using of this functionality is pretty simple – the CSV Import tab is added automatically with the theme.

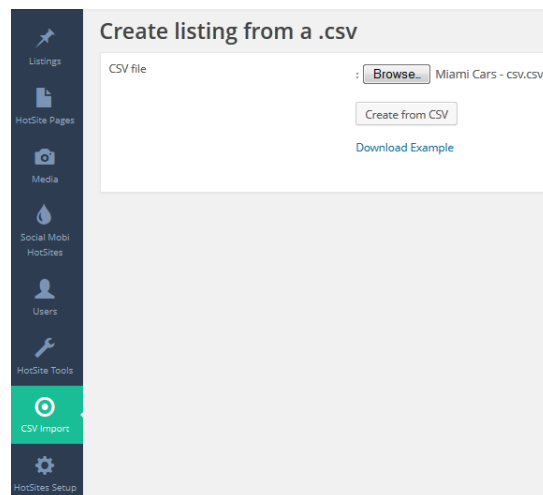

Here are steps of how to use it:

1. Click on the “**Download Example**” link to get a copy of a preformatted csv file.
  - a. Keep the first row as your guide and replace the data on the succeeding rows.
  - b. Save your changes.
2. Use saved template with clicking on a button “Choose File”
  - a. Click on the **Choose File** button and locate your saved csv file.

- b. Click Open after selecting the csv file to be uploaded.
3. Clicking on the **Create from CSV** button will start the process of creating the listings.

4. Notification messages will be displayed after the process has finished.

A sample csv file with a few listings can be downloaded in the members area .

A detailed description of the columns and data for your CSV file are listed below:

- A. **post\_title** – This is used for the business name of the listing. *Strictly required*
- B. **post\_content** – This field is intended for information about the business. It can be their “About Us” section and can also be used to display any other information the owner prefers. *Allows HTML codes and loosely required (system will not produce an error but listing will look blank with an empty description)*
- C. **category** – All (sub)categories that the listing is classified under can be defined here. If the listing is part of multiple categories, each category name must be separated by a comma and a space. (ie. Italian, Steakhouse, Seafood). – *Strictly required*
  - If the listing is under a premium plan then add “premium” in the category. (ex. Dentist, Premium)
  - If it is a featured listing then you will have to add “featured” in the category. Note that a featured listing is always marked as premium as well. (ex. Dentist, Premium, Featured)
- D. **post\_author** - (optional) The username of the hot site will automatically become the author.
- E. **post\_status** – You can put either publish or draft.
- F. **comment** – (optional) either open or close
- G. **address** – This field is for the address of the business. *Optional*
- H. **phone** – This field is for the phone number of the business. *Optional*
- I. **website** – This field is for the website of the business. Please note not to add the <http://>. (ex. [www.site.com](http://www.site.com)) *Optional*
- J. **email** – This field is for the email address of the business. *Optional*
- K. **logo\_url** – This is a **premium field** and must be filled out only if the listing has opted to pay for a premium listing. The listing will be automatically listed under the premium category if any premium field has data. *Optional*
- L. **coupon-title** – This is a premium field that is for the listing’s coupon title. It is shown on the individual page of the listing.
- M. **coupon-subtitle** – Can be used to further explain the details of the coupon.
- N. **coupon-content** – Can be used to store the coupon code(s).
- O. **coupon-expires** – Input the expiry date of the coupon here.

Fields **A, C to J** is for free listings.

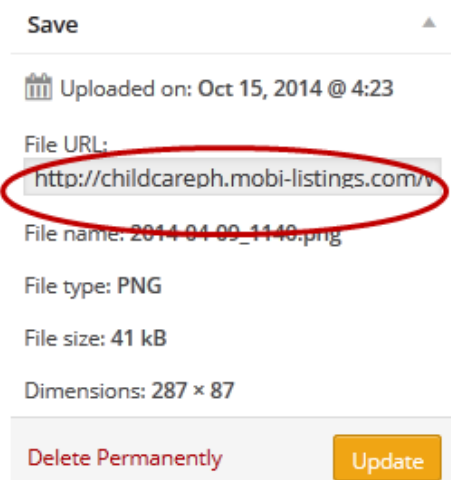

Fields **K to O** are optional but at least one of them must be filled out for a listing to be marked/flagged as premium. A listing can be manually upgraded to premium status by editing it in the **Dashboard > Listings** even if the listing does not have data for Field K to O.

Once you import a CSV file, an algorithm will check whether any of the Premium fields (K to O) have been filled out. The listing will be

automatically

marked as Premium if so. The theme will also display a notification message on how many rows/listings were converted to premium listings for reference.

What can be very interesting is adding logo in CSV file. You will do it by simply adding all images that you want to use them in the future as a logo in a Media library in the existing SocialMobi Hotsites.

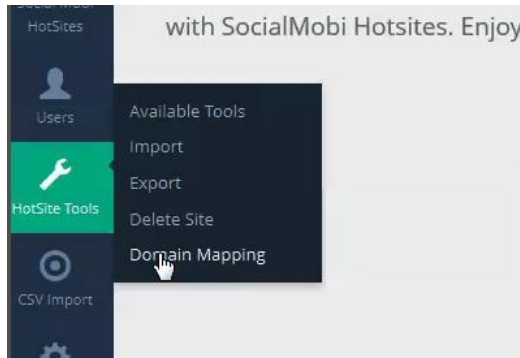

Copy the respective File URL of each uploaded image and paste it in the appropriate column (field **K** logo-url) in the CSV file (see reference below)

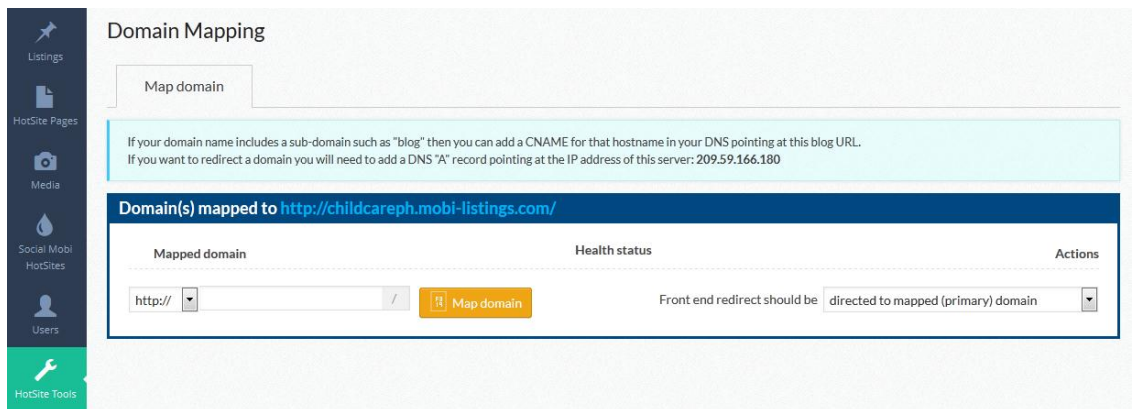

Once you are done with uploading a CSV file you can go in "Listings" and see your automatically uploaded listings/posts, categorized according what you have entered as a category value.

## 9 Domain Mapping

With Social Mobi Hotsites, it is possible to map your domain/sub-domain. To do that, go to Domain Mapping under Hotsite Tools from your dashboard.

You will then be taken to a page where you will enter your domain then click Map Domain button.

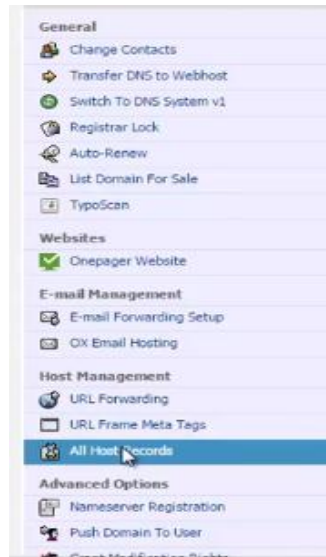

If it's a valid domain (you bought it) you will see it will show under the mapped domain.

## 9.1 Modifying Domain in NameCheap

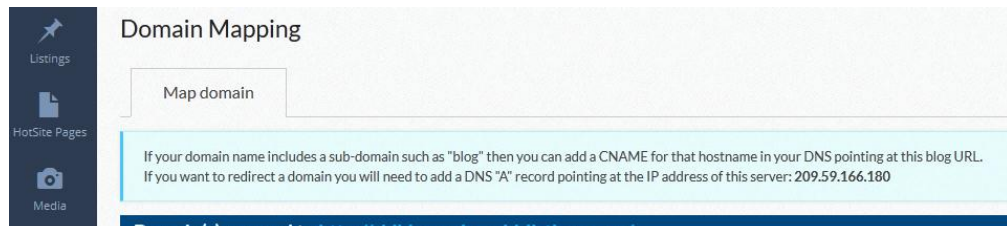

After mapping your domain, next would be to modify it. Open your domain in NameCheap then click on All Host Records from the left side.

A form will then open and what you will only modify is the info at the top. The IP Address is found in the hotsites dashboard. The Record type has to be A (Address) and the TTL is 3600.

Go back to your hotsite dashboard and copy the IP address of the server and enter it into the space provided for IP Address. Make sure to click Save Changes button once you're done.

## **9.2 Verifying Domains in Google Webmaster Tools (GoDaddy)**

---

- Log in to your Account Manager.
- Click Web Hosting.
- Next to the hosting account you want to use, click Launch.
- Click the Google Webmaster Tools icon in the Options & Settings > Tools section. This step opens the Google Webmaster Tools screen.
- Select any listed domains that you want to verify with Google Webmaster Tools.
- Click the Verify icon in the Action bar.

## 9.3 How to Change A Record in goDaddy

1. Login to godaddy.com
2. Go to domains > all domains
3. Click the down arrow of your domain and choose Manage DNS
4. Click Add Record and the Add Record Zone pop-up page will open (image below)

Record type: \* [View current](#)

A (Host)

Host: \* ⓘ

www.domain.com (NOT THE MOBI-LISTING.COM)

Points to: \* ⓘ

209.59.166.180

TTL: \* ⓘ

1 Hour

Add Another Finish Cancel

5. Choose A (Host) under Record Type
6. Enter your domain name under Host
7. Enter the IP Address - 209.59.166.180
8. Choose 1 hour for TTL
9. Click Finish button when done.

**NOTE:** Newly mapped domain takes at least 24 - 48 hours to propagate.

## **10 Support**

---

Please make sure you watch all the video tutorials in the download area. If you are still stuck be sure to check out the FAQ
